2014 International Surgical Congress
Harrogate International Centre

Association of Surgeons of Great Britain and Ireland (ASGBI)
Wednesday 30th April to Friday 2nd May

International Conference on Surgical Education and Training (ICOSET)
Tuesday 29th to Wednesday 30th April

Surgical Outcomes Club of Great Britain and Ireland (SOC-GBI)
Wednesday 30th April and Friday 2nd May

Section of Surgery of the European Union of Medical Specialists (UEMS)
Tuesday 29th April

National Cancer Research Institute (NCRI)
Clinical Studies Group Surgeons’ Meeting, Tuesday 29th April

Association of Trauma & Military Surgery (ATMS)
Wednesday 30th April

International Surgical Leaders’ Forum
Wednesday 30th April

Association of Surgeons in Primary Care (ASPC)
Thursday 1st May

United Kingdom Medical Students’ Association (UKMSA)
Friday 2nd May

PROVISIONAL PROGRAMME
AND REGISTRATION FORM
ASGBI’S 2014 INTERNATIONAL SURGICAL CONGRESS WILL BE ‘PAPERLESS’!

We are proud to announce that our 2014 Congress will be almost completely devoid of any paper! This is partly as a result of our desire to be ‘green’, but also because we recognise that this is a sensible direction of travel as we embrace the technological age. One day soon, all conferences will be delivered this way…

How will it work?
An independent developer, SpotMe, are providing the platform for the ASGBI Congress app. You will be provided with a link where you can download the app before the Congress starts.

In the meantime, you can check whether your existing device will be suitable by following the Apple and Android corresponding links below:

If you do not have your own device, an iPad, preloaded with the app and tailored for your personal use, will be made available for you when you arrive. A fee of £25 will be charged for however long you are at the Congress. (Our overall registration fees are lower this year, so even if you decide to pay the extra £25, the fees will still be less than in 2013.) **Please note that it will not be possible to maximise your attendance at the Congress without a compatible device (either your own, or rented onsite) as there will be no printed final Programme, information or instructions in paper form.**

If you are thinking about purchasing a tablet (iPad or android equivalent), this might be the time to take the plunge and buy one before the Congress begins! Please note that the Congress app will also work on most smartphones. However, the size and resolution may not be clear enough for you to benefit from the functionality.

What facilities, documentation and benefits will be available via my device?
The app will provide access to all the programme information, abstracts, speaker profiles, delegate lists and social programme details. You will also be able to use it to make your own itinerary, take part in Q&As and polls during the sessions, send messages to other delegates, make notes, arrange to meet up with individuals, search for topics or presenters, view the posters and store information specific to your needs. We believe this will be the most powerful interactive tool yet seen at any Congress and certainly the first in the UK!

There will also be a tutorial made available to delegates to ensure that everyone is able to use the technology with ease.

What do I need to do now?
You need to register for the 2014 ASGBI International Surgical Congress! Make sure you have a compatible device, or select the £25 rental of an iPad upon registration, which will be yours for the duration of the Congress. If you rent an iPad, it will be maintained and charged for you by SpotMe onsite. We look forward to seeing you there!
I am very much looking forward to welcoming you to this year’s ASGBI International Surgical Congress in Harrogate, entitled “Education and Innovation”. The 2014 Congress is being held at the Harrogate International Centre (HIC) from Wednesday 30th April to Friday 2nd May. Situated in the heart of the UK, Harrogate is a picturesque spa town full of history and character and it has grown to be one of the best events industry destinations in the country. The HIC is one of the largest purpose-built event venues in the north, regularly welcoming national conferences and exhibitions.

The week of the Congress will be bigger than ever in 2014. Not only have we received a record number of abstracts (1,311 in total), but the Association is pleased to be hosting a number of parallel events. The first of these is the biennial International Conference on Surgical Education and Training (ICOSSET), taking place on Tuesday 29th and Wednesday 30th April. This effectively makes the 2014 Congress a combined four-day event, and we encourage you to take advantage of this extended meeting.

Now in its fourth year, we are pleased to welcome back the annual Association of Trauma & Military Surgery (ATMS) Conference, which will run on Wednesday 30th April. This meeting will have its own specific programme, although ASGBI delegates will be welcome to attend these sessions if they so wish, and vice versa.

Additionally, the Association of Surgeons in Primary Care (ASPC) will be holding a Community Service workshop on Thursday 1st May and the Surgical Outcomes Club of Great Britain and Ireland (SOC-GBI) will be hosting several workshops, followed by their first AGM, on Wednesday morning. To add to this exciting programme, the Association is pleased to be including a symposium entitled “The Surgeon and the Primary/Secondary Care Interface” on Friday morning. This is being run in partnership with the Royal College of General Practitioners (RCGP) and we are delighted that the RCGP President, Professor Mike Pringle, will be speaking in this session.

As you will see from the provisional Scientific Programme Grid contained in this booklet, preparations by the Association’s Scientific Committee are well advanced and should maintain the long-standing tradition of promoting research, education, fellowship and intellectual stimulation. As the title of the Congress suggests, the various symposia in 2014 will revolve around developments in surgical education and innovation. We will be showcasing for you the latest in surgical technology, with the help of our brand new ‘Innovation and Simulation Zone’.

The ‘Zone’ will replace the traditional Industry Exhibition in 2014. Here, delegates will have the chance to get interactive with the latest surgical simulation equipment, brought along by companies who specialise in this area. These educational experiences will fit perfectly with the theme of the meeting, which will continue throughout workshops, poster presentations, ample debates and discussions.

Following the extremely positive delegate feedback from previous Congresses, we have tried to balance the variety of surgical topics with important plenary sessions, including a Motivational Lecture by Professor Atul Gawande, Chairman of the Lifebox Foundation Board. There will be the usual Royal College Lectures plus a contribution from the American College of Surgeons. We will again be holding a Meet the Surgical Experts session and I advise you to turn up early for this, as it is always extremely popular and well-attended.

As mentioned above, the Association has been extremely pleased with the amount of abstracts submitted this year; the many Short Paper sessions, e-poster presentations, and the John Wiley & Sons Ltd/BJS Audio Visual Prize will all be well represented.

This year, the success of 2013’s Ceilidh dinner dance, we will be holding a cabaret-style social evening on Thursday 1st May, in the Royal Hall at the HIC. This event will follow a brief prize session giving which is scheduled to begin at 5.30pm. For £25, this event includes a three-course meal and a glass of sparkling wine, and you can book your place on the Congress website, www.asgbi.org.uk/harrogate2014. I hope you will support this important social event which, as well as being great fun, also gives you the opportunity to meet other delegates.

Last year, 1,097 medically-qualified surgical delegates attended our event, making ASGBI’s International Surgical Congress one of the largest surgical meetings on this side of the Atlantic. I hope you will contribute to further this success in 2014 by bringing your colleagues, junior staff, nurses and partners to this superb venue.

I look forward to seeing you in Harrogate in April/May, and anticipate a lively, entertaining and stimulating Congress... and don’t forget to bring your iPad or android tablet as, this year, we have gone completely paperless!!

John Primrose
President

Visit the event micro-site at: www.asgbi.org.uk/harrogate2014
Welcome from the ICOSET Chairman

The biennial International Conference on Surgical Education and Training (ICOSET) is this year being held back-to-back with the ASGBI Congress in Harrogate, from Tuesday 29th to Wednesday 30th April 2014.

I am looking forward to welcoming you to the fourth ICOSET, following on from successful meetings in Melbourne, Dublin and Ottawa. Surgical education and training is changing for both junior and senior surgeons because of many factors, including a focus on safety and outcomes, the imposition of duty hours’ regulations, the introduction of simulation and new interventional techniques, as well as refinements in training and assessment methodologies. These themes will be discussed at Harrogate in a mixture of workshops, debates and symposia, led by educators of international repute. There will also be sessions for free papers, e-posters and a ‘Dragons Den’ session for our Innovations in Surgical Education and Training Prize. Highlights of the conference include symposia on training within duty hours restrictions, alternative training paradigms from sport, space and the military, integration of simulation into the surgical curriculum and mentoring. The ‘State of the Art Lecture’ will be given by Professor Eduardo Salas on the subject of team training, in conjunction with the Association of Trauma & Military Surgeons. Professor John Collins will deliver the ‘Halstead Lecture’ on the Future of Surgical Training and this will be followed by a plenary session with ASGBI on the Shape of Training Review, led by Professor David Greenaway.

The ICOSET Organising Committee looks forward to seeing you in Harrogate, at what promises to be an informative and exciting conference.

Jonathan Beard  
Chairman, ICOSET Organising Committee

Welcome from ATMS

On behalf of The Association of Trauma & Military Surgery, I am looking forward to welcoming you to this year’s Trauma & Military Surgery Conference in Harrogate, taking place on Wednesday 30th April 2014.

We wish to thank Professor Nicholas Gair and all his ASGBI colleagues, as we once again hold our meeting in parallel with their International Surgical Congress. We also offer a special vote of thanks to the Royal British Legion, whose generous financial support enables us to attract the highest possible calibre of distinguished speakers.

To deliver our keynote Guthrie Lecture, we will be welcoming Dr David Hoyt, Executive Director of the American College of Surgeons. Tying in with the ‘Education and Innovation’ theme, and alongside our friends at ICOSET, we will be hosting a session on trauma preparedness for military surgeons, with perspectives from both sides of the Atlantic. There is also a session focusing on the vexed problem of violence against women. We have assembled a group of international speakers to deliver an overview of all challenges facing those caring for women subjected to violence at home and in the setting of war and conflict.

A conference highlight will be the annual dinner on Wednesday night and, this year, we will be dining at the iconic Sun Pavilion in Harrogate; we encourage all delegates to come along with their partners/friends.

In the centenary year of the outbreak of the First World War, trauma care in both the civilian and uniformed military arenas couldn’t be more relevant. We welcome you to the 2014 ATMS Conference and hope that the academic forum provided will allow us to share advances in trauma care across the full spectrum and enable us to build networks for collaboration and co-operation for the future.

Douglas Bowley  
ATMS Organising Committee
GENERAL INFORMATION

This is a combined four-day conference taking place at the Harrogate International Centre (HIC) in Yorkshire from Tuesday 29th April to Friday 2nd May 2014.

REGISTRATION FEES

Registration Fees will be charged in Sterling (£) and will be collected by the Association of Surgeons of Great Britain and Ireland. Registration Fees include tea and coffee.

FEES FOR REGISTRATIONS RECEIVED BEFORE MONDAY 13th JANUARY 2014

FEES FOR iPAD RENTAL

You are encouraged to bring your own iPad or android tablet to the Congress, where the Paperless Congress app will be uploaded to your device free of charge. However, if you do not have a tablet, or would prefer to rent one, a fee of £25 will be charged for however long you are at the meeting.

CANCELLATIONS BEFORE FRIDAY 28th MARCH 2014 WILL BE SUBJECT TO A 10% ADMINISTRATION CHARGE.

PLEASE NOTE THAT REFUNDS WILL NOT BE MADE ON REGISTRATION OR SOCIAL FEES CANCELLED AFTER FRIDAY 28th MARCH 2014.

REGISTRATION

Online registration is available at: www.asgbi.org.uk/harrogate2014

A Registration Form is included at the back of this booklet. The same form is also available, and can be downloaded, at: www.asgbi.org.uk/harrogate2014

Completed forms should be posted or faxed to:

2014 Congress Registration at Association of Surgeons of Great Britain and Ireland, 35-43 Lincoln’s Inn Fields, London WC2A 3PE. Fax: 0207 430 9235.
CONGRESS REGISTRATION DESK
The Congress Registration Desk will be situated via Entrance Three on Level Four at the HIC, where badges and individual tickets must be collected on arrival. Please note that name badges must be worn for the duration of the Congress.

The Registration Desk will be open at the following times:

<table>
<thead>
<tr>
<th>Day</th>

URGENT MESSAGES
Urgent messages for delegates may be left and retrieved from the Congress Registration Desk. Delegates are asked to ensure that mobile telephones do not disturb sessions. The emergency telephone number for delegates is: 020 7304 4787

CLOAKROOM
The cloakroom is located on Level Four at the HIC.

INNOVATION AND SIMULATION ZONE
A brand new Innovation and Simulation Zone will take the place of the usual Industry Exhibition and will be situated in Hall G throughout the duration of the Congress. This will open at 9:00am on Tuesday 29th April and close at 2:00pm on Friday 2nd May 2014.

REFRESHMENTS
Coffee and tea are included in the Registration Fee and will be served in Hall D.

AUDIO VISUAL SERVICE
All presentations throughout the International Surgical Congress will be delivered using PowerPoint format. Those giving a presentation must submit their completed presentations, to the email address below, by Friday 18th April 2014. This will enable all presentations to be collated for each session in order to expedite the changeover of speakers and avoid unnecessary interruption to the programme.

Please mark your presentation clearly with your name, telephone number, email address and the relevant Congress Session Reference Number (as shown on the Provisional Scientific Programme). Speakers will be sent detailed guidance notes on the audio-visual facilities in advance of the meeting. Please email your completed presentation to: asgbi@sla.uk.com

CATERING AT THE 2014 ASGBI CONGRESS
Over the last few years, catering has been one of the biggest issues at the ASGBI Congress. When ASGBI provided free lunches for delegates, we received a large number of complaints about the quality of food and the lack of choice available. As each Congress venue has a contracted caterer, there is unfortunately no option for ASGBI to bring in an outside company. Therefore, in 2013, we increased the membership discount on registration fees by a further 5% and asked delegates to pay for their own lunch. There were food “pods” located around the venue serving a wide variety of food and a meal deal at each outlet cost between £5 and £7. Unfortunately, this also resulted in a small number of complaints, so it seems that neither option will suit everybody. In 2014, we have again increased the member discount on registration fees to 25%, and will be asking delegates, once again, to pay for their own lunch, which is common practice at many large meetings. We will provide the same low-cost food options in Harrogate with the same variety of outlets.
GUEST SPEAKERS

Professor Carlos A Pellegrini

Carlos Pellegrini received his MD in 1971 from the University of Rosario Medical School in Argentina. After training in general surgery in Argentina, he completed a second surgical residency at the University of Chicago. In 1979, he was appointed to the faculty of the University of California, San Francisco where he developed and directed a Center for GI Motility. In 1993, he became Chairman of the Department of Surgery at the University of Washington in Seattle. In 1996, in recognition for his role in the strengthening of all clinical, teaching and research programmes, he became the first holder of the Henry N. Harkins Endowed Chair.

Dr Pellegrini is a world leader in minimally invasive gastrointestinal surgery and a pioneer in the development of videoendoscopy for the surgical treatment of gastroesophageal reflux disease and oesophageal motility disorders, particularly achalasia. At the University of Washington, he developed the Center for Videoendoscopic Surgery, the Swallowing Center (now known as the Center for Esophageal and Gastric Surgery) and the Institute for Simulation and Interprofessional Studies (ISIS). In addition to his role as Chairman of the Board of ISIS, he is a long-time member of the highest decision-making bodies at UW Medicine, and chairs many committees which oversee an array of work including Continuous Professionalism, Diversity, Executive Search Committees and Oversight of Multidisciplinary Practices.

Dr Pellegrini is the current President of the American College of Surgeons (ACS), a past Chair of the Board of Regents of the ACS and a past Chair of the American Surgical Association Foundation. He is a member of the National Advisory Committee of the Robert Wood Johnson Foundation and from 2003 to 2006, he was President of the American Surgical Association. He has been Director of the American Board of Surgery, Chair of the Digestive Disease Week Council and President of OESO. In the area of medical education, he’s been a major contributor to the fundamental reform of residency work hours, having been a member and chair of the RRC for Surgery. He serves on several editorial boards and publishes regularly on many topics, including the field of training and new technologies to educate the next generation of surgeons. His bibliography lists more than 400 articles, chapters, editorials, and books, as well as 11 surgical videos.

Professor Takeshi Sano

Dr Sano is a surgeon specialising in gastric cancer and has visited more than 35 countries for lectures and live demonstrations of surgery, as a “publicist” of Japanese-style D2 gastrectomy. He graduated from the Faculty of Medicine at the University of Tokyo in 1980 and completed his surgical training in the First Department of Surgery at the same university. Dr Sano spent 15 months in Paris during 1986 and 1987 as a research fellow of the French Government Scholarship at Institute Curie. He worked at the National Cancer Center, Tokyo for 16 years and has been in his present post, Department Director of Gastroenterological Surgery at the Cancer Institute Hospital in Tokyo, since 2008.

Dr Sano is a council member of the Japanese Gastric Cancer Association and the International Gastric Cancer Association, and the committee chair of the JGCA treatment guidelines. As a steering committee member of the Japan Clinical Oncology Group, he has played central roles in clinical trials on gastric cancer surgery. He is a founding editor of the Journal of Gastric Cancer and serves as a reviewer for several other international journals. Dr Sano is an honorary member of several other medical associations including the German Society of General and Visceral Surgery, the European Surgical Association and the Royal College of Surgeons of Edinburgh. A family man, he enjoys wine, golf and holidays.

Professor David Greenaway

Professor Greenaway was appointed Nottingham’s sixth Vice-Chancellor in 2008, having previously been a Pro-Vice-Chancellor of the University for both Research and Infrastructure. A Professor of Economics, he was the founding Director of the Leverhulme Centre for Research on Globalisation and Economic Policy. His research interests lie primarily in the fields of trade and labour market adjustment, cross-border investment and international trade policy. Professor Greenaway has also acted as a consultant to the World Bank, the European Commission and the United Nations, and was Chair of the UK Armed Forces Pay Review Body from 2004 until 2010. He is currently a Member of the Government’s Asia Task Force, a high-level body helping to boost UK exports and investments in Asian countries, and has been appointed to lead a comprehensive independent review of UK postgraduate medical education and training. He was awarded an Honorary Citizenship of Ningbo, China, in September 2012.

Professor Sir Liam Donaldson

Sir Liam Donaldson is recognised as an international champion of patient safety and public health. He was the foundation chair of the World Health Organisation’s World Alliance for Patient Safety, launched in 2004. He is a past vice-chairman of the World Health Organisation Executive Board and is now the World Health Organisation’s Envoy for Patient Safety and Chairman of the Independent Monitoring for the Polio Eradication Programme. In the UK, he is currently Chair of Health Policy at Imperial College London and Chancellor of Newcastle University.

Prior to this appointment Sir Liam was the Chief Medical Officer for England, and the United Kingdom’s Chief Medical Adviser, from 1998 to 2010. During this time, he held critical responsibilities across the whole field of public health and healthcare. As the
United Kingdom's chief adviser on health issues, he advised the Secretary of State for Health, the Prime Minister and other government ministers. He has produced landmark reports which have set health policy and legislation in fields such as stem cell research, quality and safety of healthcare, infectious disease control, patient empowerment, poor clinical performance, smoke-free public places, medical regulation, and organ and tissue retention.

Sir Liam initially trained as a surgeon in Birmingham and went on to hold teaching and research posts at the University of Leicester. In 1986, he was appointed Regional Medical Officer and Regional Director of Public Health for the Northern Regional Health Authority. Sir Liam has received many public honours: 12 honorary doctorates from British universities, eight fellowships from medical Royal Colleges and faculties, and the Gold Medal of the Royal College of Surgeons of Edinburgh. He was the Queen’s Honorary Physician between 1996 and 1999 and was knighted in the 2002 New Year’s Honours List.

Professor Richard K Reznick

Born in Montreal, Dr Reznick received his undergraduate university education and medical degree from McGill University, followed by a general surgical residency at the University of Toronto. He spent two years in fellowship training, first obtaining a master’s degree in Medical Education from Southern Illinois University, followed by a fellowship in colorectal surgery at the University of Texas, Houston. Since his first faculty appointment at the University of Toronto in 1987, Dr Reznick has been active in both colorectal surgery and research in medical education. He was instrumental in developing a performance-based examination, which is now used for medical licensure in Canada. He ran a research programme on assessment of technical competence for surgeons and supervised a fellowship programme in surgical education.

At the University of Toronto Faculty of Medicine he was the inaugural Director of the Faculty’s Centre for Research in Education at University Health Network (The Wilson Centre), from 1997 to 2002. In 1999, he was appointed Vice President of Education at University Health Network. He served eight years as the R G McLaughlin Professor and Chairman of the Department of Surgery at the University of Toronto from 2002 to 2010. In July 2010, Dr Reznick assumed the position of Dean, Faculty of Health Sciences at Queen’s University and Chief Executive Officer of the Southeastern Ontario Academic Medical Organization (SEAMO).

Dr Reznick has received numerous awards for his work in education, including the Royal College of Physicians and Surgeons of Canada Medal in Surgery, the Association for Surgical Education Distinguished Educator Award, the National Board of Medical Examiners John P Hubbard Award, the Daniel C Tosteson Award for Leadership in Medical Education, the 2006 Inaugural University of Toronto President’s Teaching Award and the Karolinska Institutet Prize for Research in Medical Education. In July 2011, Dr Reznick was awarded an honorary fellowship from the Royal College of Surgeons of Scotland, and in November 2011, an honorary fellowship from the Royal College of Surgeons in Ireland. In 2013, the Royal College of Physicians and Surgeons of Canada awarded him the James H Graham Award of Merit. Dr Reznick is the author of over 120 peer-reviewed publications and has given over 200 lectures to hospitals, universities and scientific organisations around the world. He is married to Cheryl and they have three children.

Professor Atul Gawande

Professor Gawande is a surgeon, professor, writer and public health researcher. He practices general and endocrine surgery at Brigham and Women’s Hospital, and he is Professor in the Department of Health Policy and Management at the Harvard School of Public Health, and Professor of Surgery at Harvard Medical School. Dr Gawande is a highly influential writer; he has been a staff writer for The New Yorker magazine since 1998 and has published several articles. He has also written three New York Times-bestselling books.

In addition, Dr Gawande is Director of Ariadne Labs, a joint centre for health systems innovation, creating simple discoveries that produce better outcomes, greater value and more caring across the world. He is also co-founder and chairman of Lifebox, an international not-for-profit implementing systems and technologies to reduce surgical deaths globally. To date, Dr Gawande has received numerous awards including two National Magazine Awards, Academy Health’s Impact Award for Highest Research Impact on Healthcare, a MacArthur Fellowship, and he has been named one of the world’s hundred most influential thinkers by Foreign Policy and TIME. Dr Gawande earned his BS from Stanford University and he earned an MA in Philosophy, Politics and Economics from Balliol College at Oxford University, where he was Rhodes Scholar. He went on to earn his MD from Harvard Medical School and his MPH from the Harvard School of Public Health.

Professor Eduardo Salas

Dr Salas received his PhD degree in 1984 in Industrial and Organizational Psychology from Old Dominion University. He is Trustee Chair and Pegasus Professor of Psychology at the University of Central Florida (UCF). Dr Salas also holds an appointment as Program Director for Human Systems Integration Research Department at UCF’s Institute for Simulation & Training. Previously, he was a Senior Research Psychologist and Head of the Training Technology Development Branch of NAVAIR-Orlando, for 15 years. During this period, Dr Salas served as a principal investigator for numerous R&D programmes, focusing on teamwork, simulation-based training, decision-making under stress and other similar topics. Dr Salas has co-authored over 375 journal articles and book chapters and co-edited over 25 books. He is, or has been, on the editorial board of nine journals, is a past editor of the Human Factors journal and current Associated Editor for the Journal of Applied Psychology and Military Psychology.

Dr Salas has held numerous positions in the Human Factors and Ergonomics Society (HFES) during the
past 15 years. He is the past chair of the Cognitive Engineering and Decision Making Technical Group and of the Training Technical Group, and currently he is the President. He is also very active with Society for Industrial and Organizational Psychology (SIOP—Division 14 of APA. Dr Salas is past President of SIOP and past Series Editor of the Organizational Frontier and the Professional Practice Book Series. He is a Fellow of the American Psychological Association (SIOP and Divisions 19, 21 & 49), the HFES and the Association for Psychological Science. He received the 2012 Joseph E McGrath Lifetime Achievement Award for the study of teams and groups from INGroup, the SIOP’s 2012 Distinguished Professional Contributions Award and the 2012 Michael R Losey Award from the Society for Human Resources Management.

Professor David B Hoyt

Professor Hoyt received a BA degree with honors from Amherst College, followed by an MD degree from Case Western Reserve University in 1976. From 1976 to 1984, Dr Hoyt was a Surgical Resident and Research Fellow at the University of California, San Diego (UCSD) and Scripps Immunology Institute. He joined the faculty at UCSD and immediately became involved in their Trauma Service, where his role as Director lasted from 1989 to 2006. In 1995, he was appointed Professor of Surgery and was awarded The Monroe E Trout Professorship in Surgery at UCSD (1996). In 2006, Dr Hoyt was appointed to the position of Chairman for the Department of Surgery at the University of California, Irvine (UCI) and the John E Connolly Professor of Surgery. In 2008, Dr Hoyt was also appointed Executive Vice Dean for the UCI School of Medicine. In January 2010, he was appointed Executive Director of the American College of Surgeons and remains Emeritus Professor of Surgery at the UCI.

Dr Hoyt has distinguished himself within the Department of Surgery, having delivered numerous named lectures, received multiple, significant awards from his colleagues as well as scientific organisations, while serving in positions of leadership. He continues to serve as an advisor for many graduate students. Dr Hoyt is a member of the American Surgical Association, Surgical Biology Club, Western Surgical Association and Society of University Surgeons, amongst others. He is currently the immediate Past President of the American Association for the Surgery of Trauma, Past President of the Society of General Surgeons of San Diego, Past President of the Shock Society, Past Chairman of the American College of Surgeons Committee on Trauma and Past Medical Director of Trauma at the American College of Surgeons. He has been a visiting professor at a large number of institutions nationally and internationally and is an Editorial Board Member of six journals. Dr Hoyt consistently receives significant public research funding and is the author of over 500 publications. He was recently awarded the American Heart Association Resuscitation Science Lifetime Research Achievement Award, the American College of Surgeons Distinguished Service Award and the Shock Society Scientific Achievement Award.

Professor Mike Pringle

Professor Pringle is President of the Royal College of General Practitioners, having taken over from Dr Iona Heath in November 2012. Having been a general practitioner for 30 years, Mike is now retired from practice and the University of Nottingham, where he is Emeritus Professor of General Practice. He has been Chair of RCGP Council from 1998 to 2001, Chair of the RCGP Trustee Board from 2009 to 2012 and RCGP revalidation clinical lead from 2008 to 2012. Mike helps to run CHIEC, an innovative primary care development project, and is Strategic Director of PRIMIS+. He holds a number of board positions with voluntary organisations including Arthritis Research UK.

Dr Suzanne Shale

Dr Shale works as an advisor in the fields of healthcare ethics and patient experience. Her work encompasses support for professionals and patients following harm in medicine; safety, governance and performance review in surgery; clinical ethics; and quality assurance of medical education and training. She works with the NHS at national and local level, and with professional and regulatory bodies. During 2013, she chaired the NHS England Never Events task force, authoring its final report; and advised the Francis Report implementation team on developing standards to rebuild trust after medical harm. Also in 2013, the Royal College of Surgeons published Dr Shale’s comprehensive evidence-based guidance on enhancing governance in surgery, including escalating and responding to concerns. She has a particular interest in the ethical issues associated with innovation in surgery. Dr Shale has a long standing association with the University of Oxford, she is a Supernumerary Fellow of Harris Manchester College, Ethox Research Associate, and Associate of the Health Experiences Institute. She is sole author of Moral Leadership in Medicine: Building Ethical Healthcare Organisations (2012).

Roger Taylor

Roger Taylor is Director of Research and Public Affairs at Dr Foster, where he is responsible for public information, including the Dr Foster Hospital Guide. Roger was a co-founder of Dr Foster and has been a strong advocate for the role of greater transparency as a mechanism for consumer protection, as well as a driver for quality improvement in public services. Roger began his career as a journalist, working as a correspondent for the Financial Times in the UK and the US. Prior to that, he worked for the Consumers’ Association, writing and researching for Which? magazine. He is a board member of Ofqual, the regulator of qualifications in the UK, and a trustee of CAADA, the domestic abuse charity. Roger is also a member of the Health Sector Transparency Panel and the Open Data User Group. His book on NHS reform, God Bless the NHS, was published by Faber and Faber in March 2013.
Professor Michael Rosen

Michael Rosen completed his surgical training at Massachusetts General Hospital, Harvard Medical School in 2004. During his training, he completed a research fellowship in minimally invasive surgery at the Cleveland Clinic Foundation, Cleveland Ohio. He went on to complete a clinical fellowship in Minimally Invasive Surgery at Carolinas Medical Center. He joined the faculty of Case Western Reserve University where he has remained since 2005. During his time at Case Medical Center, Michael has won the annual teaching award twice, and has been promoted to Professor of Surgery. He currently serves as the Chief of the Division of GI and General Surgery, and the Director of the Case Comprehensive Hernia Center. He has been recognised for his outstanding research in minimally invasive surgery by receiving the SAGES Young Investigator award. Michael has published over 100 peer-reviewed journal articles, 20 textbook chapters, and has served as the editor for four surgical textbooks. He serves on eight editorial boards for various surgical journals.

Professor Ken Fearon

Professor Fearon is Professor of Surgical Oncology at Edinburgh University and Honorary Consultant Colorectal Surgeon at the Western General Hospital, Edinburgh. He qualified in Medicine with honours in 1982 from Glasgow University. From 1983 to 1986, he was the Cancer Research Clinical Research Fellow in the Department of Oncology in Glasgow University and submitted his thesis (MD) on the “Mechanisms and Treatment of Cancer Cachexia” in 1987. He was appointed as Lecturer in Surgery at the University of Edinburgh in 1988, Senior Lecturer in 1993 and Professor of Surgical Oncology in 1999. His principal research domains include human nutrition and metabolism, the metabolic response to surgery and cancer cachexia and his translational research is focused on the role of the systemic inflammatory response. Professor Fearon’s clinical research is aimed at development of trial methodology including early biomarkers and novel outcome measures. He has conducted several of the largest prospective randomised intervention trials in cancer cachexia and had a major interest in nutritional pharmacology. He is also a founding member of the Enhanced Recovery After Surgery (ERAS) Society. Ken was presented with the Cuthbertson Medal from the Nutrition Society in 1991, the Hippocrates Award from the Society on Sarcopenia, Cachexia and Wasting Disorders (SCWD) in 2009 and the Arvid Wretlind Award from the European Society for Cachexia and Wasting Disorders (SCWD) in 2009 and the Arvid Wretlind Award from the European Society for Cachexia and Wasting Disorders (SCWD). He has been an invited speaker at numerous national and international meetings. His main contribution has been to the area of clinical nutrition in cancer patients.

Professor John Collins

Professor John Collins will be delivering the Halstead Lecture at the 2014 ICOSET. After completing his surgical training in England, during which he shared in the Moynihan Prize and was awarded his MCH, Professor Collins joined the University Department of Surgery in Auckland. He later completed his MD in medical education. John subsequently became head of one the University’s two clinical schools and went on to serve on a number of New Zealand Ministry of Health Committees. He has been a Professor of Surgery, Chair of the Board of Surgical Training, Chair of the Court of Examiners in General Surgery and Foundation Dean of Education at the Royal Australasian College of Surgeons. John has led reviews of the UK Foundation Programme, the Royal College of Surgeons of England and recently of postgraduate medical training in New South Wales. He is an Honorary Fellow of the Royal College of Surgeons in Ireland, ASGBI and the Academy of Medical Educators UK. He has been a Hunterian Professorship at the Royal College of Surgeons of England and was awarded the Sir Louis Barnett and the Sir Alan Newton Medals by the Royal Australasian College of Surgeons. John is currently Professorial Fellow in Surgery at the University of Melbourne and Visiting Research Professor in the Nuffield Department of Surgical Sciences at the University of Oxford.

Professor Robert Steele

Professor Robert Steele obtained his initial surgical and academic training in Edinburgh, Hong Kong and Aberdeen, and was appointed as Senior Lecturer in Surgery at the University of Nottingham in 1990. He was then appointed Professor of Surgical Oncology at the University of Dundee in 1996 and Professor of Surgery and Head of Academic Surgery in 2003. His initial research interests were in breast cancer and, when working for Professor Sir Patrick Forrest, he developed the concept of axillary nodal sampling. In Hong Kong, Robert’s interest shifted to upper gastrointestinal disease and he was instrumental in introducing endoscopic haemostasis for bleeding peptic ulcer. In Nottingham, working for Professor Jack Hardcastle, he became involved with the early trials of colorectal cancer screening and, since then, colorectal cancer has remained his primary clinical and academic interest. He has carried out work in surgery and radiotherapy for colorectal cancer and in areas of the genetic and chromosomal abnormalities that underlie the disease. His main interest, however, is in Colorectal Cancer Screening. Having led the UK demonstration pilot that was used to inform the decision to introduce national screening programmes throughout the UK, Robert is, at present, the Clinical Director of the Scottish Colorectal Cancer Screening Programme, and has published extensively in this area. He has chaired several NHS QIS groups related to colorectal cancer and colorectal cancer screening and he chaired the SIGN group that developed the latest set of colorectal cancer guidelines. He is currently a member of the Council of the Royal College of Surgeons of Edinburgh and the Edinburgh editor of *The Surgeon*. He is co-founder and co-director of the Scottish Cancer Prevention Network, chairs the Board of Directors of the Scottish Cancer Foundation and has been elected President of the Association of Coloproctology of Great Britain and Ireland.
Covidien Permocol™ Collagen Paste

YOU DREAMT ABOUT IT, WE INVENTED IT.

PERMACOL™ COLLAGEN PASTE

An innovative alternative for anorectal fistula repair

Innovation that matters

- Designed to enhance the management of anal fistula repair
- Minimally invasive solution reducing the risk for faecal incontinence
- Potentially reduces the risk of anal fistula recurrence

To discover how Permocol™ collagen paste can help you improve patient outcomes in anal fistula repair, contact your local Covidien representative.

IMPORTANT: Please refer to the package insert for complete instructions, contraindications, warnings and precautions.

SCIENTIFIC PROGRAMME

PROVISIONAL SCIENTIFIC PROGRAMME
The Provisional Scientific Programme for the Congress is given in this booklet. The Provisional Programme is also available at, and can be downloaded from, the Congress micro-site: www.asgbi.org.uk/harrogate2014
The online Scientific Programme will be regularly updated in the run-up to the meeting.

JOHN WILEY & SONS LTD/BJS AUDIO-VISUAL PRIZE DVDs
This annual DVD competition has been generously sponsored by the BJS Society and John Wiley & Sons Ltd. There will be two categories of award:
• Entries produced “in-house” by a consultant surgeon in association with his/her department of medical illustration.
• Entries produced more “commercially” by a consultant surgeon with external technical or financial assistance.

There will be one winner from each category, and each winner will receive £300.
The top scoring DVDs, as decided by the Association’s judging panel prior to the Congress, will be shown on a dedicated screen within the ‘Innovation and Simulation Zone’ throughout the event.

JOHN FARNDON PRIZE
The BJS has endowed a prize of £500 for the best manuscript to be published in the BJS in the previous calendar year, having been previously presented at an ASGBI Congress. Papers published in the BJS are subject to the usual system of editorial review.

Manuscripts should be submitted online at: http://mc.manuscriptcentral.com/bjs. Please indicate clearly on the title page that your paper is being presented at the ASGBI Harrogate Congress.

MOYNIHAN PRIZE
This is the Association’s most prestigious scientific award. The prize consists of £1,000 together with a medal and is presented to the author of the best research work delivered at the Congress. The Moynihan Prize Session is taking place on Thursday 1st May. The top scoring abstracts, as determined by the adjudicators and the Association’s Scientific Committee, will be presented in this session and, from these, the winner of the Moynihan Prize will be selected.

SHORT PAPERS OF DISTINCTION
This is a new category for the 2014 Congress and will consist of the highest-scoring non-Moynihan abstracts. A session for these papers has been allocated on Friday 2nd May.

SHORT PAPERS
There will be several sessions for short papers at the Congress. All accepted abstracts, whether for oral presentation or an e-poster, will be published online on the BJS website (citable). Failure to present an accepted abstract will be taken seriously. If, due to unforeseen circumstances, an abstract has to be withdrawn, please notify Kristina Gloufchev immediately on kristina@asgbi.org.uk

All authors who have abstracts accepted for the Congress are encouraged to submit a manuscript at http://mc.manuscriptcentral.com/bjs, for consideration for publication in the BJS.

E-POSTERS OF DISTINCTION
The top scoring e-posters, as determined by the Association’s Scientific Committee, will be allocated as “E-Posters of Distinction” and will be shown on their own electronic screen throughout the duration of the Congress.

E-POSTERS
All other abstracts accepted as e-posters will be displayed on electronic media throughout the Congress.

TAUGHT COURSES
A number of Taught Courses and Workshops, as detailed below, will be offered during the Congress. Numbers are strictly limited and places will be allocated on a ‘first come, first served’ basis. Places can be booked online at www.asgbi.org.uk/harrogate2014 or by using the Registration Form at the back of this booklet. Demand is expected to be high and early booking is recommended to avoid disappointment!

Association of Surgeons in Primary Care Workshop: Getting Involved with Community Surgery
Thursday 1st May 2014
11.00-12.30 and 13.30-15.00
Maximum 60 delegates per session.

This interactive workshop is aimed at hospital surgeons and day unit staff. It will detail the new opportunities for working in the expanding sector of Community Surgery, which is part of the government’s drive to downsize hospitals and take care closer to home. The workshop will bring together primary and secondary care clinicians, will demonstrate how services are commissioned, and what clinician remuneration is likely to be.
British Journal of Surgery: How to Review a Clinical Paper
Thursday 1st May 2014
13.30-16.30
Maximum 50 delegates.
This course is delivered by the BJS editors and covers the skills required for reviewing work submitted for publication in medical journals. The course is interactive and includes tutorials and small group discussion facilitated by an editor.

SOCIAL PROGRAMME

Tuesday 29th April 2014
31st ANNUAL GOLF COMPETITION FOR THE ST ANDREWS’ QUAICh
The Association’s 2014 Golf Competition will be held at Rudding Park Golf Course on the afternoon of Tuesday 29th April 2014. Two prize trophies will be awarded; the President’s Putter, for the best scratch round, and the St Andrews’ Quaich, as the main handicap prize. There will be drinks at the end of the afternoon, when the prizes will be awarded.

The cost is £35 per person to include a soup and sandwich lunch, a warm-up round of six holes, a golfing pack and eighteen holes of golf on the Hawtree Course. For further details and to enter please visit www.asgbi.org.uk/harrogate2014.

Wednesday 30th April 2014
WELCOME RECEPTION
All delegates are invited to attend a drinks reception in Hall D, once the day’s sessions end at 5:30pm, during which the Congress will be formally opened.

ATMS ANNUAL DINNER
In addition to a vigorous academic programme, the Association of Trauma & Military Surgery will be holding its annual formal conference dinner on Wednesday 30th April at The Sun Pavilion in Harrogate. This unique and historic venue, reflective of the Art Deco period, is idyllically located in the midst of the tranquil Valley Gardens in the heart of elegant Harrogate.

The evening will begin at 7:15pm with a drinks reception and, at 8:00pm, guests will be seated in the glass-domed auditorium to enjoy a three-course meal with coffee. Guests will be entertained with live music from a band of the Royal Marines. Delegates are reminded that spouses and guests are very welcome to attend but, as tickets are limited, we would ask that you should please book early to avoid disappointment.

Cost: £45 per person, including a three-course meal and coffee.
Dress Code: Black tie or 2B (mess kit) with decorations for serving officers.

Thursday 1st May 2014
ASGBI CONGRESS SOCIAL EVENING
Following the success of 2013’s Ceilidh dinner and dance, in 2014 we are holding a Yorkshire-themed social evening in the Royal Hall at the HIC. A reception will be followed by a brief prize giving session, after which delegates will retire to an informal three-course meal, with some light entertainment. Tables can be booked upon request, so that teams can enjoy the evening together, and there will be a pay-for bar for those who wish to buy drinks.

Cost: £25 per person, including a three-course meal and entertainment. Dress Code: Smart casual.

ACCOMMODATION

HOTEL ACCOMMODATION IN HARROGATE
To help you get the most from the Congress, we are delighted to be continuing our partnership with Fresh! Reservations, specialists in providing accommodation for exhibitions and conferences. Fresh! provide a free online accommodation booking service to delegates attending the International Surgical Congress.

To maximise your value for money and to obtain the most up to date and competitive prices, all Congress accommodation must be booked online at www.miceconcierge.com/events/ASGBI2014.

Fresh! cannot guarantee the availability of accommodation, so to make the most of your Congress experience, book now and take advantage of the following benefits:

• Exclusive negotiated rates (please do compare them against online booking tools).
• An easy way to book through the Fresh! LIVE online booking tool.
• Carefully selected ‘preferred’ hotels that have been chosen for their overall standards and proximity to the Congress.
• The chance to meet and talk with many other delegates and visitors to the Congress.

All queries relating to delegate accommodation should be referred to Charlotte Davies at: Fresh! Reservations Ltd.
Suite 7, 1st Floor, Southgate House, St George’s Way, Stevenage, SG1 1HG.
Email: hotels@freshres.co.uk Tel: 01438 908777.

CLOSE OF CONGRESS AND DElegates DEPART

Association of Surgeons of Great Britain and Ireland and The Surgical Foundation

2014 MOYNIHAN TRAVELLING FELLOWSHIP

The prestigious Moynihan Travelling Fellowship, up to the value of £5,000, is available annually by open competition to Specialist Registrars towards the end of higher surgical training or Consultants within five years of appointment at the closing date for this application. The Fellowship is intended to enable the successful candidate to broaden their education and to present and discuss their contribution to British and Irish surgery overseas. It is not appropriate, however, that the award be used as part-funding for an off-service year of training.

Candidates must be residents of the United Kingdom or the Republic of Ireland but need not be either Fellows or Affiliate Fellows of the Association; however they should be engaged in general surgery or in one of its specialties. A full Curriculum Vitae should be submitted giving details of all past and present appointments and publications, together with a detailed account of the proposed programme of travel, costs involved and objectives to be achieved during the Fellowship.

Short-listed candidates will be invited to attend for interview by the Association's Scientific Committee. The Committee will pay particular attention to originality, scope and feasibility of the proposed itinerary. The successful candidate will be expected to act as an ambassador for British and Irish Surgery and should be fully acquainted with the aims and objectives of the Association of Surgeons of Great Britain and Ireland and its role in surgery.

After the Fellowship, the successful candidate will be required to provide a written report of their Fellowship for inclusion in the Association’s Journal, and to address a future ASGBI International Surgical Congress. A critical appraisal of the Centres visited, together with an assessment of how the experience will enhance future personal and professional development, should form the basis of the report.

Applications should be submitted online at www.asgbi.org.uk by the closing date of Friday 3rd October 2014.

Unsafe surgery is a global health crisis.

You’re up to a thousand times more likely to die or experience complications from an operation in a low-resource country than in a high-resource one.

Surgery should be life-saving, not life-threatening.

Visit www.lifebox.org or @safersurgery to find out more.
INTERNATIONAL CONFERENCE ON SURGICAL EDUCATION & TRAINING (ICOSET)
29th to 30th April 2014 | Harrogate, United Kingdom

Held in parallel with the:
ASGBI International Surgical Congress | 30th April to 2nd May 2014

This conference will be invaluable to all those involved with surgical training, and will include symposia, debates and workshops featuring an international faculty, as well as short papers, e-posters and a hands-on “Innovation and Simulation Zone.”

THE TWO-DAY PROGRAMME INCLUDES:

• A debate on Supernumerary Training, featuring Professor Richard Reznick
• International Challenges to Surgical Education and Training, with ASiT and BOTA
• Alternative Training Paradigms - Lesson from Sport, Space and the Military
• Integration of Simulation into the Curriculum - JCST and Schools of Surgery
• Assessment Systems for Surgical Training - ISCP and Exams
• Team Training: Should it be Mandatory for all Surgeons? Featuring Professor Eduardo Salas
• Mentorship and Coaching Programmes - ASiT Pilot and other models
• Halstead Lecture, to be given by Professor John Collins: The Future of Surgical Training- Lest We Forget

For more information and to register or book accommodation, please visit: www.icoset2014.com

Hosted by the Association of Surgeons of Great Britain and Ireland, in collaboration with the Royal College of Surgeons of England, Royal College of Surgeons of Edinburgh, Association of Surgeons in Training and the British Orthopaedic Trainees Association
Association of Surgeons of Great Britain and Ireland

A DATE FOR YOUR DIARY!

In 2015 the ASGBI Congress, in partnership with EAHPBA will be held in Manchester from Wednesday 22nd to Friday 24th April 2015.

We look forward to seeing you there!

THE ASSOCIATION IS GRATEFUL FOR THE GENEROUS SUPPORT OF THE FOLLOWING CORPORATE PATRONS
ABOUT THE VENUE - HARROGATE INTERNATIONAL CENTRE

Harrogate has been hosting business and corporate events for more than 100 years, starting in The Royal Hall before the main exhibition halls were built. It is one of the best places in the UK to come to as a business visitor.

The HIC event planning and technical teams will be helping ASGBI to deliver a world-class and memorable event, using their previous experience of political conferences, product launches, large AGMs and even the Eurovision Song Contest.

Situated in the heart of the UK, Harrogate is a picturesque spa town full of history. It has retained all of its Edwardian character and offers visitors a wonderful, quintessential English experience. Harrogate has grown to be one of the best events industry destinations in the country and the HIC is one of the largest purpose-built event venues in the north.

CAR PARKING
For satellite navigation, please use HG1 5LA. The Harrogate International Centre has its own 210 space dedicated underground car park and a further 1,200 spaces at the nearby Jubilee and Victoria car park.

HIC underground car park costs are as follows:
Up to 3 hours - £4.00, up to 6 hours - £7.50, up to 12 hours - £11.50, 24 hours - £13.00.
Sharing best practice in trauma care
1st World War Centenary

Conference Highlights:

Annual Guthrie Lecture
Resuscitation: Past and Present
David B. Hoyt, MD FACS: Executive Director
American College of Surgeons, Chicago, USA

Violence Against Women Symposium
Facing up to the challenges of gender-based violence: an overview of the key issues; the clinical management of a rape survivor; female genital mutilation and rape as a weapon of war.

Joint Plenary ICOSET & ATMS
International Conference on Surgical Education & Training (ICOSET)
Trauma preparedness: How can we maintain and build on current military trauma competencies? Team training: should it be mandatory for all surgeons?

Joint ASGBI & ATMS Symposium
Topics include: Understanding The Response To Injury & Operative Thoraco-Abdominal Trauma Decision Making.

Lower Limb Trauma
Orthoplastic Mini Symposium: Exploring advances in the management of lower limb trauma.

Annual Black Tie Dinner
Join your peers for a relaxing evening of fine dining, networking and live music at the Sun Pavilion in Harrogate.

Free Paper Presentations
Abstract presentations and displayed posters: Best podium presentation will be presented with the Wiseman Medal.

For more information, please visit: www.atms.org.uk

Hosted by the Association of Surgeons of Great Britain and Ireland
In collaboration with the Royal College of Surgeons of England
ASGBI is now Mobile

The smarter, faster way to access information while you’re on the move.

The ASGBI App is packed with everything you need to keep informed with the latest information. Use it at the 2013 Congress to preview guest speakers, search the scientific programme, review parallel conferences, check out the exhibitors, find your way with built-in maps and much, much more.

The ASGBI App is available year round to provide quick and convenient access to the ASGBI Journal, download Consensus Statements and other publications, find and register for training courses, and learn more about Corporate Patrons and Academic, Commercial and Professional Partners. Download it now to your iPhone or iPad.
